**The Town of Manteo 2012 Annual Consumer Quality Report**

**2012 Drinking Water Quality Report**

The Town of Manteo operates a drinking water system that ensures the water you use every day is safe and trustworthy. The system is designed to ensure that your water meets all regulations set by state and federal agencies. The Town's water system is under continuous operation and is monitored on a daily basis. The Town operates the water distribution system that delivers the water to your house. The system is operated by the Town of Manteo to provide a safe and dependable supply of drinking water.

**2012 Collection System Annual Report**

The Town of Manteo operates a wastewater system that provides service to the entire Town. The system is designed to ensure that the wastewater is treated in a manner that is safe and does not pose a threat to the environment.

**2012 WWTP System Annual Report**

The Wastewater Treatment Plant (WWTP) is a grade A-graded activated sludge facility treating wastewater from the Town's wastewater system. The plant uses advanced treatment processes to remove pollutants such as nutrients, pathogens, and organic compounds. The system is designed to ensure that the treated wastewater is discharged into the environment in a manner that is safe and does not pose a threat to the environment.

**Emergency Response Information**

The emergency response information is posted on signs located on the wastewater and/or stormwater systems. Your connection to the wastewater system is a responsibility that continues to expand and grow. It is important to know the location and contact information for the wastewater system. The wastewater system is monitored on a daily basis and any changes are reported to the appropriate authorities.
